4. I changed it to 14400 and it is not legible. I changed it to 19200 and it is not legible. I changed it to 28800 and it is not legible. I changed it to 38400 and it is not legible. I changed it to 57600 and it is not legible. The only rate that seems to have anything resembling what it should is at 9600.
5. The immediate functions that initialize calls are PIN_MANAGER_Initialize(), OSCILLATOR_Initialize(), and EUSART_Initialize().
